

# Passive DNS monthly subscriptions

We offer several monthly plans to best suit your needs, these range from low query volumes and limited budgets to a full integration of Passive DNS data into your products.

|  | Basic<br>\$0 | Classic<br>\$250 <sup>PCM</sup> | Pro<br>\$850 <sup>PCM</sup><br>MOST POPULAR | Enterprise<br>CONTACT US FOR<br>PRICING OPTIONS |
|--|--------------|---------------------------------|---|---|
| <b>Max queries per month</b>   | 200          | 1,500                           | 20,000                                      | 200,000   |
| <b>Max queries per day</b>   | 20           | 100                             | 1,000                                       | 10,000  |
| <b>Exact match</b><br>Search for an exact match in the database of your requested query  | ✓            | ✓                               | ✓   | ✓   |
| <b>Left match</b><br>Perform a “left match” searching for the records which have the requested string on the leftmost side. (example: www.google.*)  | -            | -                               | ✓   | ✓   |
| <b>Right match</b><br>Perform a “right match” searching for the records which have the requested string on the rightmost side. (example: www.google.*)   | ✓            | ✓                               | ✓   | ✓   |
| <b>Word match</b><br>Search for a single string of characters  | -            | -                               | ✓   | ✓   |
| <b>Fuzzy match</b><br>Search for domains where one or multiple characters have been altered: Select the number of characters you want to be different from the original domain to reveal a host of spoofed domains             | -            | -                               | ✓   | ✓   |
| <b>Internationalized domain name search</b><br>Search for internationalized domain names once their “confusable” characters have been replaced with their normalized homoglyphs e.g. “un--apl-csa.com” is shown as “apple.com” | -            | -                               | ✓   | ✓   |
| <b>First seen</b><br>Add time parameters for the first seen Unix timestamp   | -            | -                               | ✓   | ✓   |
| <b>Last seen</b><br>Add time parameters for the last seen Unix timestamp   | ✓            | ✓                               | ✓   | ✓   |
| <b>Limit</b><br>Define the maximum number of records returned by the search  | -            | -                               | ✓   | ✓   |
| <b>Real-Time Data Feeds</b><br>All new data is pushed through to the customer automatically  | -            | -                               | -   | Negotiable                                      |
